Myanmar Licensed Contractors Association

Chairman Message

Myanmar Licensed Contractors Association was successfully established on 26th October 2016 with the intention of the development of construction and infrastructure industries of Myanmar.

MLCA consists of the companies and business from construction and infrastructure sector and strives for the emergence of high quality industry.

For the sake of the nation, its industry and its members, we commit to stand with these three prioritized tasks and try to make harmony between selves and others. We have decided to develop three stages of interest; interest of each members that's leading to interest of association, interest of association that's leading to the interest of industry and interest of industry that's leading to the interest of the nation.

Regarding the promoting of the interest of the nation and industry, we also have formed MLCP (Myanmar Licensed Contractors Public Company) and MLCP will take part in the social and economy development of Myanmar.

For implementing of these tasks, we follow the principle of team work. We intend to promote team spirit and cooperation not only among our members but also with our partners from local and abroad.

Therefore, We, MLCA always open the door and warmly welcome individual and organization all of you who have common principle, good will and goals.
